

Lighting Category Definitions

CATEGORY	DESCRIPTION	EHF
1. Fluorescent tubes measuring less than or equal to 2 ft	Includes all diameters and light outputs, shaped fluorescent tubes, and UV-A and UV-B tubes (unless captured under Category 7).	\$0.20
2. Fluorescent tubes measuring greater than 2 ft and up to or equal to 4 ft		\$0.40
3. Fluorescent tubes measuring greater than 4 ft		\$0.80
4. Compact Fluorescent Lights (CFL)/ Screw-In Induction Lamps	<p>Fluorescent bulbs that are typically similar in size and intended to replace an incandescent (traditional) light bulb, including pin-type sockets, covered CFLs and various output wattages. Includes screw-in induction lamps.</p> 	\$0.15
5. Light Emitting Diodes (LED) - Bulbs	<p>Solid-state bulbs that are typically similar in size and intended to replace CFLs or traditional incandescent/halogen light bulbs, including pin-type or screw-in bulbs of various output wattages. (Note: Miniature bulbs are captured under Category 9.)</p> 	\$0.20
6. Light Emitting Diodes (LED) – Tubes and Other	<p>Solid-state tubes of all lengths and shapes for all lighting applications, and other lamps/bulbs used for specialty purposes or industrial lighting applications (e.g. LED HID replacement lighting).</p> 	\$0.55

Lighting Product Guide Ontario

CATEGORY	DESCRIPTION	EHF
<p>7. High Intensity Discharge (HID), Germicidal, Special Purpose and Other</p>	<p>Includes all HID technologies, such as High Pressure Sodium (HPS), Low Pressure Sodium (LPS), Mercury Vapour and Metal Halide, as well as UV-C / Germicidal lamps and tubes, Tubular Induction lamps (circular, square, U etc.), UHP replacement lamps (projector etc.), Neon replacement lamps, etc.</p> 	<p>\$1.10</p>
<p>8. Incandescent / Halogen</p>	<p>Filament lamps of all shapes, sizes and wattages (unless captured under Category 9)</p> 	<p>\$0.05</p>
<p>9. Miniature Bulb Package</p>	<p>Miniature bulbs are small, or very small bulbs. They can be LED, incandescent, halogen or neon and are typically designed and sold as replacement bulbs for applications such as: portable lighting (i.e., handheld flashlights), indicating, signaling, signage, emergency, electronic displays, automotive and transportation and decorative light strings/tape/ribbon/rope.</p> <p>Miniature bulbs are often sold in packages of two or more. Fees will be assessed on a per-package basis and NOT on a per-unit basis (as with all other lamp categories). Note: If miniature bulbs that meet this definition are sold individually and not in a package of two or more, the bulbs can be reported and assessed fees as if in packages in multiples of 10. For example, if in a reporting period, 41 single bulbs that meet this definition were sold individually, they would be reported as five “packages of 10” and assessed five fees.</p> <p>Some examples of common base types for miniature bulbs are provided below. Please note this list is not exhaustive.</p> 	<p>\$0.10</p>
